### IS IT. THE SAME MAN?

Walter S. Lowry has announced as a candidate for Congress to represent the Sixth Congressional District in opposition to the veteran William M. "Bill" Colmer.

The name of Mr. Lowry strikes a chord of memory that runs back to 1946. We wonder if this is the same Mr. Lowry whom we remember from the 1946 labor trouble at will b 50c for adults and 25c for Barber, 1. the Ingalls Shipbuilding Yards in Pascagoula, or is it it another man with the same name? We rather think that this is the same man—the man who had to be whisked out of town by legal authorities before members of labor unions in Pascagoula had a chance to toss him out of town by

The Walter S. Lowry who we remember was business manager of the local boilermaker's union. He refused to sign an agreement with Ingalls for retroactive pay for the men after all other unions had agreed to it and the men had agreed to it—refused because of some personal jurisdictional matter. Workers of the yard, who belonged to unions, called a work stoppage in protest against Mr. Lowry's leadership. Charles Roof, president of the boilermaker's union was said to have been brutally beaten by this Mr. Lowry. Roof is partially disabled because of the removal of a bone from an arm—but Lowry attacked him

As a result of the assault and this Mr. Lowry's actions, men of the yard called a work stoppage, held a mass meeting against Lowry and an official from the International office had to go to Pascagoula to take over the union on a temporary basis to quiet the men.

a little bit and would have given him some evidence of their ical life of the district. feelings had he been available at that time. Pascagoula officials hurriedly carried Mr. Lowry out of town to keep union men from getting to him.

## Vote Against Legal Whiskey

The Legislature called Senate Bill 565 a Whiskey

"An act to refer to the electorate at the first Democratic primary election in August, 1952, the question 'for' or 'against' the legalized sale of intoxicating liquor of an alcoholic content of more than 4% by weight in the State of Mississippi on a county option basis."

The "question" was legalized sale of intoxicat-

The press, even the wet press, called the election a liquor election up to and including August 3,

For example, on Sunday, June 22, 1952, they referred to it as as "the proposal to legalize liquor;" on Monday, June 23, 1952, as "Mississippi's liquor referendum" and "the proposal to legalize liquor;" on July 25, 1952, as "liquor legalization." On Monday, June 30, 1952, they headlined a front page story "Mississippi to Vote on Liquor Repeal, Seven Congressmen in August."

A Jackson paper on Friday, August 1, 1952, neadlined a front page story "Charcoal Drys vs. Soggy Wets" and referred to it as "the wet and dry liquor issue.' It also carried a sample ballot entitled "How Do You Vote? Wet or Dry? Mark one, clip and mail to Wet-Dry Editor," and on August 3, 1952, it talked of "the referendum election to be held on August 26th on the questions of legalizing liquor in Mississippi."

Everybody up to that time thought this was

BUT on August 4, 1952:---

Along comes somebody calling himself or themselves the Citizens Committee for Home Rule and Local Law Enforcement and tells us that we have all been mistaken! That home rule is the only issue and that this is not a whiskey election or a wet and dry election at all and charges the United Drys an association composed of church and civic leaders well-known to everybody, not simply being mistaken but with deliberately lying about the bill, misleading the people about the issues and seeking to carry their point by any means however despicable! And the wet press immediately took up

Of course they are fooling no one but themselves! You can define the Issues for yourself! You know it is still a whiskey election just like it has always been!

But if you are confused or bumfuzzled by this strange development in the campaign, ask yourself reasonably who is trying to mislead you, the church and civic leaders of your state, your neighbors and friends, whom you know-or this anonymous committee! Ask yourself what the interests of the par-

Make them get back on the track and face the Real Issue-Legal Whiskey, and give us facts in its behalf, if any they have, instead of trying to inject an issue that has been settled already for all time to come in Mississippi!!!

#### Legislature to set up a legal process under which each of Mississippi's 82 counties will be given the right of Home Rule on the question of liquor sales. -This action by the Legislature will not make the sale of liquor legal in any county in the state.

-Only upon petition of 20% of its voters, can a county hold a later local opt on election on this matter. -The result of such later County Option election will determine whether or not a county will operate under

On August 26, you will NOT be voting for or against

the sale of liquor in Mississippi. This is not a "wet or dry" question — it's a HOME RULE election!

-Approval of Proposition A will be a mandate to the

a legalized plan for the sale of liquor or continue under the prohibition laws.

-A county need never hold a local option election unless 20% of its voters so petition. Those who favor Proposition A, including this Com-

mittee For Home Rule and Local Law Enforcement, have based their statements squarely on these facts, supported by a ruling of the Attorney General's office and the law itself.

Below is the actual law enacted by the 1952 session of the Legislature setting forth the August 26 election. See for yourself what you're voting for on August 26:

#### MISSISSIPPI LEGISLATURE

REGULAR SESSION 1952

SENATE BILL NO. 565 (As Approved by the Governor)

AN ACT TO REFER TO THE ELECTORATE AT THE FIRST DEMO CRATIC PRIMARY ELECTION IN AUGUST, 1952, THE QUESTION "FOR" OR "AGAINST" THE LEGALIZED SALE OF INTOXICATING LIQUOR OF AN ALCOHOLIC CONTENT OF MORE THAN 4% BY WEIGHT IN THE STATE OF MISSISSIPPI ON A COUNTY OPTION

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MIS-

SECTION 1. At the first Democratic primary election to be held in August, 1952, there shall be an election held throughout the state in which the qualified electors and all persons who are qualified to vote may vote, said election to be governed in all respects by laws governing primary elections, and upon ballots used in such election shall be printed the words:

A. For allowing counties upon petition of 20% of the qualified electors to vote for or against legalizing the sale of intoxicating liquor of an alcoholic content of more than 4% alcohol by weight.

B. Against allowing counties upon petition of 20% of the qualified electors to vote for or against legalizing the sale of intoxicating liquor of an alcoholic content of more than 4% alcohol by weight.

The voter shall indicate his choice by putting a cross (x) or check ( $\sqrt{\ }$ ) mark opposite the words expressing his choice. Provided, however, that if a majority of the qualified electors voting vote for the proposition as submitted, said vote shall be a mandate to the

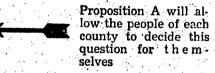

legislature to set up a controlled system for the whole state. Provided,

further, that if a majority of the qualified electors voting vote against the proposition as submitted, said vote shall be a mandate to the legislature to set up a sufficient enforcement agency to carry out the provisions of such SECTION 2. The county election commissioners of each county shall, within ten (10) days after the election, transmit to the secretary of state to be filed in his office a statement of the total number of votes cast in

said election on the proposition submitted, the number of votes cast for the proposition submitted, and the number of votes cast against the proposition submitted, and the secretary of state shall tabulate said returns and eartify the same to the governor and to each branch of the legislature at the next regular or special session.

SECTION 3. It is the purpose and intent of the legislature to provide herein the means whereby the qualified electors of this state may vote for or against the proposition submitted in section 1 of this act. Nothing contained in this act shall be construed as suspending or repealing any laws now in force prohibiting the possession, sale, transportation, or distribution of intoxicating liquors within the State of Mississippi.

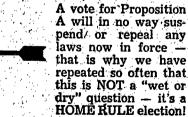

SECTION 4. This act shall take effect and be in force from and after

This provides for the process under which each county will be given the right of Home Rule and County Option on the question of liquor sales.

> A vote for Proposition B is a vote for a statewide police force that will take over local law enforcement and seriously endanger Home Rule.

A vote for Proposition A will in no way suspend or repeal any laws now in force —

## Wonderful Miles!

Wonderful Mileage!

most spectacular performers on the road. Come in today and drive it yourself. Then listen to our deal and find out how amazingly easy it is to own this wonderful 1952 Pontiac!

**Dollar for Dollar** 

No car offers you more for your money—in power, performance and economy—than the beautiful

A Great General Motors Value!

Pontiac is the lowest-priced straight-eight in America. Pontiac is the lowest-priced car with Dual-Range Hydra-Matic Drive\*—the transmission that puts more sheer ease into driving than you ever thought possible. And with Pontiac's new economy axle cutting engine revolutions up to 30%, this is the thriftiest Pontiac ever built! Come on in and get the figuresthey all add up to one conclusion: You just can't buy more driving

## Vote (X) FOR Proposition A

PROPOSITION A - FOR ALLOWING THE PEOPLE OF EACH COUNTY TO DECIDE THE QUESTION OF LOCAL OPTION FOR THEMSELVES

# MENACE TO DEMOCRACY?

Every now and then a false rumor about the Catholic Church gets into circulation and-for a timefools a lot of people.

Usually such rumors die out when fair-minded people learn the truth. But some of them pop up again like "ghosts" out of the distant past, to deceive people who have not heard them before.

The one most prevalent today is that American freedom is in danger from "the anti-democratic program of the Roman hierarchy." This, to some people, will sound new and alarming. Actually, there is nothing new about it.

Catholics of a century ago heard the same "alarm"...that the Church was hostile to our form of government—that she was anti-republican in spirit and influence - that she would disregard our free institutions and deprive us of our self-

Even those who do not understand the teaching and practices of the Catholic Church will have to admit the falsity of this rumor ... for the evidence of a hundred years contradicts it in every particular. The Catholic people always have stood shoulder-to-shoulder with their non-Catholic fellow-citizens in building and defending our liberty and free institutions.

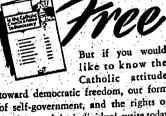

The rumor of today...like the rumor of a hundred years ago. does not claim that the Catholic Church is harmful to men's souls. It does not claim that the Church

endangers the salvation of mankind. Its entire objection is that the Church is hostile to our political and social institutions.

In this there is a remarkable resemblance to the "alarm" sounded against Jesus Christ Himself.

"If we let this man go," said the Savior's critics, "the Romans will come and take away our name and

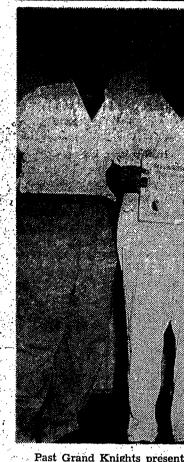

Some think that Catholics should get their blood pressure up and reply angrily to these rumors. This is not necessary. We know that the American people of all faiths ... with their traditional sense of justice... will boot this ghost back into its closet without our help.

## WHO WILL PAY THE BILLS?

Mississippians will be called upon in the immediate future to issue bonds and pay greatly increamed taxes in order to pay for-

-An estimated \$100,000,000 for extra school facilities under an equalization program -or \$12,000 000 avery two years to pay off

a construction bond issue. -...n estimated \$13.000.000 every two years for increased teachers' pay under the same equalization program.

-Additional millions for increased old are benefits and for maintaining and operating our expanded hospitalization program. The chairman of the Senate Finance Committee,

in a newspaper interview last week, said: "Mississippi will need an additional \$25,000,000 every two years to naw for more and achool facili-

"Either we must raise sufficient revenue to provide for a segregated school system or abanden our segregated school plans. The people of Mississippi are not going to permit the latter course."

Therefore, how and where to raise the trees on an already overburdened citizens' tax bill to the tune of \$25,000,000 or more biennicily, presents the most perplexing problem the Mississippi Legislature has met in over 20 years."

THIS MEANS \$12,500,000 EVERY YEAR IN NEW TAXES

to finance these programs Where is this money coming from? Who is going to pay these bille?

YOU ARE—unless you and the other voters of Mississippi seize the opportunity on next Tuesday to place Mississippi's \$30,000,000 a year illegal liquor traffic under a system which will allow County Option and legal control, regulation and

-Approval of Proposition A next Tuesday will be a mandate to the Legislature to set up a legal

process under which each of Mississippi's 82 counties will be given the right of Home Rule on the ques ion of liquor sales.

-This action by the Legislature will not make the sale of liquor legal in any county in the state. -Only upon pelition of 20% of its voters, can a county hold a later County Option election on this

-The result of such later County Option election will determine whether or not a county will operate under a legalized plan for the sale of liquor or continue under the prohibition laws.

-No county need ever hold a County Option .

election unless 20% of its voters so petition. -But approval of Proposition A will, through the above County Option system, produce millions of dollars in new tax income on the present \$30,ogn and 'Henal liquer traffic for the benefit of all of the people of Mississippi—and without raising anybody's taxes!

#### FOR EXAMPLE

Only 9 of Tennessee's 86 counties have placed liquor under legal control and taxation — and THE ANNUAL REVENUE INTO THE STATE TREASURY FROM THIS SOURCE, for the benefit of ALL the people of Tennessee, IS OVER \$6,000,000 A YEAR.

In Alabama:
Only 21 of Alabama's 67 counties have placed iduor under legal control and taxation—and THE ANNUAL REVENUE INTO THE STATE PREASURY 1.0M THIS SOURCE, for the benefit of ALL the people of Alabama, IS OVER \$10,000,000 A YEAR.

Mississippi, with an annual illegal liquor traf-fic of over \$30,000,000.— which is comparable to both states, now receives only slightly more than \$1,000,000 a year in Black Market taxes, Mississippi could get millions more. A vote FOR Proposition A will do the job.

## Vote (X) FOR Proposition A

PROPOSITION A - FOR ALLOWING THE PEOPLE OF EACH COUNTY TO DECIDE THE QUESTION OF LOCAL OPTION FOR THEMSELVES

CITIZENS' COMMITTEE FOR HOME RULE AND LOCAL LAW ENFORCEMENT

J. Louis Alford, Chairman State Headquarters — 122 South President Street, Jackson, Mississippi IN THE MATTER OF THE STATE OF CLAUDE LESLIE POENSON, DECKASED, Administrator

County Agent's Notes By HOWARD SIMMONS

Before you house your pulets, select the ones to keep. There is no use in saving an inferior bird. Select those that are strong, vigorous and healthy. Selected birds that have good heads, well developed wattles and combs and clear, bright eyes. Make sure that the birds you keep have long, deep and wide

Cull out all pullets that are reak, and show signs of disease. Do not save those that have long shallow heads or beefy heads, shrunken wattles or dull eyes. Do not house pullets with old hens if you can help it. Older hens may pass on diseases and parasites to the younger birds Too, they may fight the pullets

## **WEEKLY NEWS LETTER**

W. F. Bond, Director of Public Relation

State Department of Public Welfare

.The State Welfare Board

The State Welfare Board consists of three members, one from each Supreme Court district of the state, appointed by the governor with the advice and consent of the state senate, for a term of four years. The Board appoints a Commissioner of Public Welfare and fixes his compensation within certain limitations; makes policies for the operation of the Public Welfare Program including a Merit System covering all personnel; passes on all appeals from the action of the county welfare authorities; and determines the number of employees and fixes the salaries of same. Regular meetings are held every sixty days and oftener when necessary. The members serve without salary but are reimbursed for actual expenses incurred in discharging their offi-

cial duties and they also receive

a per diem for not more than fif-

teen days in any one year.

### AIRPLANE TERMED INDISPERSANTE IN DAILY LIFE OF NEARLY EVERY LISS SIPPIAN

Editor's Note.
Following is another of the series of articles prepared by the State Aeronautics Commission designed to broaden the knowledge and interest of Missis-

The tremendous progress re-corded by aviation during the past almost indispensable factor in the everyday life of nearly every Mis

Mr. Average Citizen goes abou his daily chores oblivious of the importance of the airplane to him as an individual, but if it were suddenly removed from his life he would find his activities con-A quarter of a century ago the airplane meant little more than a luxurious mode of transportation

state and county fair crowds. Developments in aerodynamics during the past 25 years have airplanes manyfold. Its uses seem almost limitless as it enters one new field after another and quickly makes its presence absolutely

There are approximately 750 airplanes engaged in private operations of one type or another the field of advertising. Planein Mississippi today. That, or course, does not include the three loud speakers mounted on planes dozen or so airliners daily serving carry advertising messages to vast Mississippi's traveling public. Mississippi's traveling public.

planes which fly regular schedules speaking engagement to another looking for costly pipe line leaks, easily spotted from the air by the change in the color of vegetation caused by the escaping gas.

The planes are equipped with a two-way radio over which news

of a leak can be transmitted to a ground station and a repair crew quickly dispatched to the scene. Power companies and other pine line firms contract with private operators for line patrol service.

fore the snow stopped falling planes were busy spotting the major breaks. Their work quickened resumption of service by many hours, according to com-

Their work was of great importance to the many industries dependent on electricity for power as well as the thousands of resi-

dents so dependent on electric current in their homes. Aerial mapping, a highly impor-

of mails and an instrument of of a critically ill patient to a medical center or by the quick dispatch providing aerial circus thrills for of medical supplies to a stricken person or community. The above photograph shows a doctor and nurse awaiting the arrival by air of

Pipe line and power companies
lean heavily on the airplane for
patrol duties. The United Gas
Pipe Line Company owns its own
lean dearny candidates from one

Forestry patrol is another important work of the airplane. The State Forestry Commission contracts for air patrols during the fire season and several companies with large timber holdings depend

protection.

The Mississippi Highway Patrol operates its own plane, which it ple more air-minded and do search uses to transport personnel, con- and rescue work for the air force The value of the airplane to power trol traffic by spotting congested companies was dramatically illus areas before and after football trated during the paralyzing snow, ice and sleet storm the latter part to assist in manhunts. Its plane is credited with saving the life.

Lines sagging under the weight of a patrolman, shot and left dy-

of the ice snapped poles like ing by two criminals at an isolated matchsticks, disrupting service spot, near Vicksburg. The plane throughout the state. Almost before the snow stopped falling dispatched help in time to save

sions. Numerous instances are on stricken persons.

Executive flying also has come

The entire state has been lown planes, as do many contracwith widely separated jobs and Airplane charter service is availports and the Mississippi River Commission utilizes its own plane

for its flood control work through-out the Mississippi Valley. The Mississippi Geological Com-mission operates its own helicopter, which it employs in soil erosion studies and in searching for oil deposits.

The airplane is important to the activities of many sportsmen. It is used for fishing on the Gulf Coast and also for duck and goose hunting along the sand bars of the Mississippi River. Group flying has become popu

lar in recent years. Air tours are conducted as a means of promot-ing private flying. Two functions performed by the Civil Air Patrol are designed to make young peoas a part of its civilian defense duties.

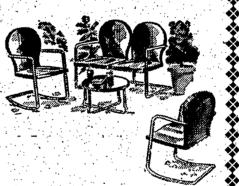

The Flying Farmers, a group dedicated to the job of increasing agricultural uses of the airplane is very active in Mississippi. There also is the Confederate Air Force, in which nobody has a rank less than a colonel and which holds

Airplanes are frequently util-ized for mercy and emergency mis-ized for mercy and emergency misrecord where lives were saved by carry passengers must have the air transportation of patients to hospitals or medical supplies to aminations. Those licensed to sengers for hire after each 100 hours of flying time.

General aviation, which covers Aerial mapping, a highly important adjunct to agriculture, is another work of the airplane. Every county agent's office today has an aerial map of the county, thanks major oil and gas companies opto the Wright Brothers' invention.
